RE: Ashland/NSP Lakefront Site
Multiphase Flow and Consolidation Testing Report
CERCLA Docket No. V-W-04-C-764
USEPA ID# WISFN057952
WDNR BRRTS #02-02-00013

Dear Mr. Hansen:

Attached is the third and final Treatability Test report prepared in accordance with USEPA's approval of the February 23, 2007 Treatability Studies Work Plan. The Bench Scale Treatability Study was submitted on August 16, 2007. The Cap Flux Test Treatability Study was submitted on September 18, 2007.

The information from all three reports has been considered and incorporated in the draft Feasibility Study, which will be submitted on October 29, 2007.

Sincerely,

NEWFIELDS
